SIOUX FALLS AREA COMMUNITY CANVASSING SCRIPT AND GUIDE

WHAT TO SAY AT THE DOOR

"Hi! I'm _____, and we're out talking to neighbors about the big data center being planned near Sioux Falls.
We're concerned about how it could affect our water, electricity bills, and neighborhoods.
We're asking the city to slow down until better protections are in place.
Here's a flyer with more information! We're also inviting everyone to a public meeting on October 27th."

QUICK TALKING POINTS

What's a data center?
- A big building full of computers that use electricity and need cooling.

Why should I care?
- Large data centers can affect electricity costs, water use, noise, and nearby neighborhoods.

What's the concern?
- We want to make sure our community has strong protections before a project this big moves forward.

What are we asking for?
- A temporary pause on large data center development while the city works on stronger protections.

Are you against data centers?
- We're focused on protecting our community and making sure residents have a voice.

How can I help?
- Add your name to our community letter using the QR code on the flyer and attend the public meeting.

IF YOU DO NOT KNOW AN ANSWER TO A QUESTION:

"That's a good question! I don't want to give you the wrong information, but there's more information on the flyer."
IT'S OKAY NOT TO KNOW EVERYTHING!

REMEMBER:

BE A GOOD NEIGHBOR FIRST!
You don't need to be an expert on data centers. Your job is to share information, listen to your neighbors, and make sure people know they have a voice in decisions that affect their community.

IF SOMEONE IS UPSET:

Stay calm and politely say:
"Thanks for your time. Have a good day!"
Then leave. Don't argue or try to change their mind.
