MEET YOUR SIOUX FALLS AREA

DATA CENTER COALITION

Local people. Real action. Stronger Sioux Falls.

We are a nonpartison group of Sioux Falls area residents, brought together by three local organizations: *Let Sioux Falls Vote*, *Dakota Rural Action*, and *South Dakota for Data Center Transparency.*

We believe good decisions start with informed, involved communities. That's why we're helping neighbors connect, understand the issues, and participate in local government.

Together, we make things happen. Since January 2026, we've collected over 5,000 petition signatures, hosted community meetings, researched major development proposals, and worked directly with elected officials to bring community concerns and questions into the conversation.

Everyone's voice matters! Our coalition works to ensure residents have access to information, opportunities to ask questions, and a meaningful voice in decisions affecting their community. Please join us!

DATA CENTER COALITION

ABOUT THE GEMINI DATA CENTER PROJECT

It's already in progress.

In late 2023, Gemini Data Center SD LLC acquired a 164-acre site between Sioux Falls and Brandon with intentions to develop a hyperscale data center. Gemini's preliminary plan was approved by the City of Sioux Falls in January 2026.

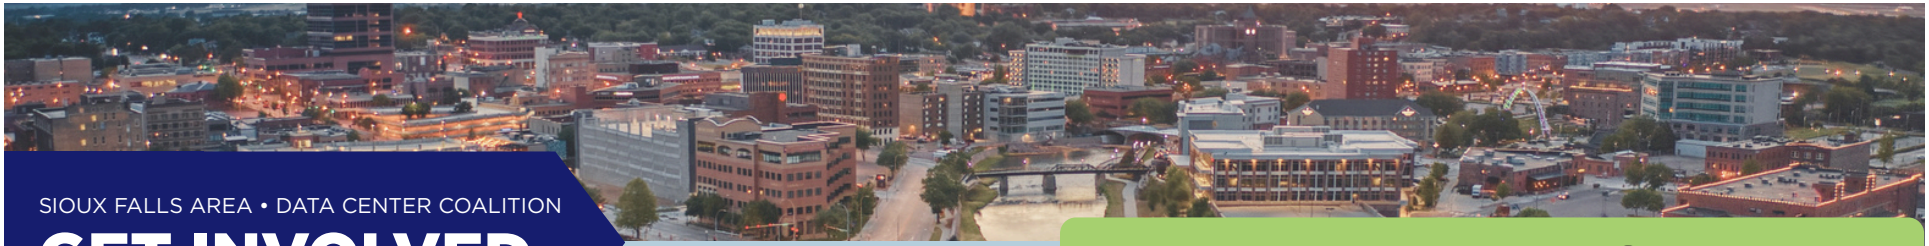

LET'S PRESS PAUSE

if something is worth doing, it's worth doing right.

Under-regulated data centers around the country are reported to have a negative impact to the surrounding communities' water, land, power bills, and tax base.

Sioux Falls does not yet have the rules in place that this industry needs, and the Gemini project is moving ahead anyway.

For this reason, **we've asked Sioux Falls City Council to press pause** on building and operating permits for large data centers, including Gemini, until sensible protections are in place.

GET INVOLVED

SIGN A DIGITAL LETTER TO SUPPORT THE MORATORIUM

Ask City Council to press pause on data centers

Scan the QR code or visit
SouthDakotaDataCenter.org/#sign

Add your name to our community sign-on letter to ask City Council to pause data center permits for all data centers, including Gemini, until practical protections are in place.

Signing the letter is something you can do *right now* to let your voice be heard!

CONNECT WITH US

There's a lot to do but we believe that many hands make light work!

Visit **SiouxFallsDataCenter.info** to sign up for email updates emails or to tell us that you'd like to volunteer.
